AP Physics B (discontinued) AP Physics B – discontinued in 2014 – was supposed to be equivalent to an introductory algebra-based college course in physics, with a laboratory component. The course was non-calculus-based, utilizing algebra and basic trigonometry to solve various physics problems. AP Physics B was divided into five different sections: Newtonian Mechanics, Fluid Mechanics and ...

AP Central – Education Professionals – The College Board

AP Physics B was an Advanced Placement science course equivalent to a year-long introductory college course in physics. High school students studied Newtonian mechanics, electricity and magnetism, fluid mechanics, and thermal physics, waves and optics, and atomic and nuclear physics in preparation for a cumulative exam given each May. The course was non-calculus-based and involved algebra and ...
