I agree with the other comments. This is a very nice data viz approach/strategy as well as being useful and informative. I think being able to access it other formats (even PDF versions for some mobile users) will help accessibility of the work and also to inform lower or more constrained resource (less tech, less reliable power etc.) environments.

Data Visualization Inspiration: Analysis To Insights To

As a subject in computer science, scientific visualization is the use of interactive, sensory representations, typically visual, of abstract data to reinforce cognition, hypothesis building, and reasoning. Data visualization is a related subcategory of visualization dealing with statistical graphics and geographic or spatial data (as in thematic cartography) that is abstracted in schematic form.

Welcome to Dear Data Two This project was inspired by Dear-Data.com, a wonderful collaboration between Giorgia Lupi and Stefanie Posavec. We (Jeffrey Shaffer and Andy Kriebel) decided to follow in their footsteps and coincidentally, Andy moved from California to London, England. It is our intention to follow the original authors, week by week, creating our own visualizations on postcards, and ...
