

health measurement scales a pdf

Level of measurement or scale of measure is a classification that describes the nature of information within the values assigned to variables. Psychologist Stanley Smith Stevens developed the best-known classification with four levels, or scales, of measurement: nominal, ordinal, interval, and ratio. This framework of distinguishing levels of measurement originated in psychology and is widely ...

Strength. Beer strength is the alcohol content measured by volume expressed as a percentage, that is to say, the number of millilitres of absolute alcohol in 100 ml of beer.. The most accurate method of determining the strength of a beer would be to take a quantity of beer and distill off a spirit that contains all of the alcohol that

was in the beer.
