Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

The racial achievement gap in the United States refers to the educational disparities between various ethnic groups. It manifests itself in a variety of ways: among students, blacks and Hispanics are more likely to receive lower grades, score lower on standardized tests, drop out of high school, and they are less likely to enter and complete college than whites, who similarly score lower than ...

What is Personality? Personality is an easy concept to grasp for most of us. It's what makes you who you are. It encompasses all the traits, characteristics, and quirks that set you apart from everyone else. In the world of psychology research, personality is a little more complicated.

Big Five Personality Traits & The 5-Factor Model Explained

The OPI is a testing method that measures how well people speak a language by comparing their performance of specific language tasks with the criteria for each of proficiency levels described in the ACTFL Revised Proficiency Guidelines or the ILR Guidelines for Speaking.

Language Learning Difficulty | About World Languages

Most of the studies comparing single-sex education with coeducation focus on grades and test scores as the parameters of interest. Before we look at those studies, we want you to consider another variable altogether: namely, breadth of educational opportunity. Girls in all-girls schools are more likely to study subjects such as advanced math, computer science, and physics.
