Anthropology is the holistic "science of humans", a science of the totality of human existence. The discipline deals with the integration of different aspects of the social sciences, humanities and human biology. In the twentieth century, academic disciplines have often been institutionally divided into three broad domains.

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...
