Colombia's economy has experienced rapid increase over the past three years despite a serious armed conflict. The economy continues to grow in part because of austere government budgets, focused efforts to reduce public debt levels, an export-oriented growth strategy, an improved security situation in the country, and high commodity prices.

A growing body of research is giving us new ways to quantify the harms of bigness and the benefits of local ownership. In this post, we round-up the important studies and provide the evidence that policymakers can use to craft better laws, business owners can use to rally support, and citizens can use to organize their communities.

This chapter discusses ways of charging users directly for parking facilities and services, and the impacts this has on vehicle travel. Parking pricing provides revenue and cost recovery, encourages more efficient use of parking facilities, reduces parking facility costs and land requirements, reduces vehicle traffic and encourages use of alternative modes.

The NBER does not define a recession in terms of two consecutive quarters of decline in real GDP. Rather, a recession is a significant decline in economic activity spread across the economy, lasting more than a few months, normally visible in real GDP, real income, employment, industrial production, and wholesale-retail sales.
